

**Casino Package**  
**4 x Table Sample Package 2021**

**Client:** TBC

**Event:** Casino Night

**Date of Event:** TBC

**Location:** TBC

**Number of guests expected:** TBC

## **Proposal:**

### **Introduction:**

On the night of your Casino, we will provide you with a package of entertainment that will ensure your night goes off without a hitch.

The first point to note is that this event will be run by a professional event manager supported by assistant event management staff who can leave you to enjoy your night.

If it is deemed necessary, a member of the ESI team will perform a site visit in advance of your event in order to confirm the location and set-up of our equipment. Our staff will arrive early on the day of your event and set-up the tables and lighting following this spec.

Also included in the package is an MC who will arrive early on the evening and set-up the sound gear that he will use later in the night. In order to keep costs under control I will be using an MC who can also perform the DJ'ing later in the night. The performer in question has many years' experience in corporate events and is at the top of his game.

A further option within this package are the extra performers, I have added a few to the last page in with the costings so that you may evaluate the costs and decide on that basis.

## **The Casino:**

Firstly, upon the arrival of your guests, we will have the Casino up and running. We will set-up the Casino in a pre-selected area. We will use lighting to create a cool backdrop effect.

There will be two hostesses on hand, these will explain what is happening on the night and show your guests to the tables.

The Casino itself will comprise of 5 tables. As is the case with these types of events generally not all people will want to play at exactly the same time therefore if we cater for 45-50 people at a time this will ensure adequate coverage.

We will have a mixture of blackjack and roulette as these are the easiest and the most fun to play. Each table will be manned by a croupier who has experience of corporate events and who will explain the rules to each player. As your guests enter the casino area they will all be awarded play chips to a value which we can determine in advance of the event.

As people accumulate to a certain level of chips, they can win prizes, or we can hold a grand final at the end of the free play period. The prizes can be sourced by you or us in advance as per your requirements.

- All our croupiers are very well presented and dressed in black and white formal wear.
- All our croupiers are well trained and are very pleasant.

There will be a director appointed to the casino area with a helper to distribute playing chips and help with any queries guests may have.

There will be low back-ground music throughout the Casino element of the night so as not to have dead-air. The MC will be letting people know about the rules of the Casino and also playing party games with your guests throughout the duration of the Casino.

The DJ/MC will then be on hand to begin playing as soon as the Casino element has been completed. The DJ will be available for up to 3 Hours.
