

**Samba Carnivale  
Sample Package - 2021**

**Client:** N/A

**Contact:** N/A

**Event:** Samba Carnivale Night

**Date of Event:** TBC

**Location:** N/A

**Number of guests expected:** TBC

## **Proposal:**

### **Introduction:**

On the night of your event we will provide you with a package of entertainment that will ensure your night goes off without a hitch, with this in mind your event will be run by a professional event manager, leaving you to enjoy your night. The event manager will co-ordinate with the hotel and ensure that any equipment and venue dressings are in place well before your guests begin to arrive.

We have included in your package a complete range of entertainers to keep your guests happy. You will find a full list of the performers below. These performers can be used for the meet and greet function, the call to dinner and also before the music starts as an after dinner show.

This package includes a DJ/MC along with a sound and light show. The DJ/MC is available to co-ordinate any speeches, giveaways or items that need to be mentioned to your guests throughout the evening. A good MC is important for you to be able to co-ordinate the night effectively and guide your guests through the party.

Your package covers the entire evening from when your guests first arrive until the last song from the DJ.

## **The Package:**

We will have the performers perform a meet and greet function as people arrive at your venue, these are:

2 Carnival Dancers

Drummer - to create an atmosphere both inside and outside

Fire performer to create the real Rio experience. In full costume.

Snake Performer

Magician – Up Close Style

The drummer, dancers and fire performer will be in position just at the main entrance during the entire arrival time period. The Snake performer and the up close Magician will be circulating throughout the room during this period, approaching small groups and getting involved with your guest's right from the start.

We will also have an area set aside for a fortune teller; she will be positioned in a fairly central area (depending on the venue) and can be accessed at your guest's leisure.

We will also have a large sky-tracker outside the venue and internal coloured lighting in the colours Green, Gold & Purple.

These lights are Uplighters which can be placed projecting on the ceiling to increase the effect.

Inside the main function room, we will have large 8ft projector screens (Large LED Screens) showing scenes from previous mardi gras celebrations and more of the coloured up-lighters. In addition we will dress each of the tables with the Coins, Beads, feathers and other dressings.

After the meal we can have the dancers and drummer and snake performer do short performance and another great idea at this point is to get your guests to participate and learn the Samba dances etc. The DJ/MC would be needed at this point to co-ordinate this part.

We will also be using either indoor safe pyro-technics or confetti air cannons depending on ceiling heights etc, these will be used at appropriate times to accentuate the performers and even later on in the evening during the music.

**Here is a list of the elements we will supply:**

- 2 Carnival Dancers (Brazilian)
