

**Fun Factory: Corporate Event Package 2021
Sample Package**

Client: TBC
Venue: TBC
Date: TBC

Event Outline:

Taking the lead from the 1990's TV show "The Fun Factory", your Fun Factory will bring you right back to those great fun times! The key component here is FUN with none of the activities being too stressful but full of fun.

Your selected venue will be laid out with 4 different inflatable activity stations. The group will be divided into teams, the sizes are dependent on your numbers. Each team will compete with each other in a variety of different inflatable & interactive game zones. Each member of the teams must compete in at least one activity. The teams must have a team name and strategically plan who has the best abilities and put forward a minimum of 2 members for each activity. The team who scores the best overall in the inflatable/activity city will be crowned champions!

Station 1 will consist of a bungee run. This activity contains 2 'runs', 2 people compete at a time. Each person is attached to a bungee rope and must try to get your team flag as far as possible down the run.

Station 2 will consist of 'The Bucking Bronco'. Contestants will try and remain on the bronco for the longest possible time- more difficult than it looks, this activity is sure to keep everyone entertained and laughing.

Station 3 is an inflatable obstacle course. Two contestants from each team must complete the obstacle course together in the fastest time in order to win!

Located at **Station 4** in the far right corner of the room will be a human foosball table. This is similar to a bouncing castle where people are strapped to ropes allowing minimal movement. Each player must work together to move the football and score!

There will also be a **Station 5** which will contain the giant games area. This is a transitional zone for players between games so that they always have something to do.

We will also have a sound system on hand for announcements and background music. ESI will supply an event manager and assistant event manager who will organise your staff and keep the ball rolling.
